# WELCOME

### to the 14th Annual International WOMEN IN SURGERY CAREER SYMPOSIUM

With immense joy and a sense of shared purpose, we welcome you to an event representing the intersection of ambition, dedication, and transformative change – the 14th Annual International Women in Surgery Career Symposium. In this year's theme: *"Reinventing Women In Surgery: A Global Celebration,"* we embark on a journey that transcends borders, disciplines, and the conventional narratives that have long defined our field.

Our gathering is more than a symposium; it is a movement toward inclusivity, recognition, and empowerment in Surgery. As we gather to celebrate our collective journey, share insights, and forge new paths, we stand united in our commitment to encourage more women to embark on and thrive in surgical careers.

In a field where the echoes of a male-dominated past are still heard, we stand committed to promoting professionalism, equality, and the indispensable role of women in Surgery. Our symposium serves as a vital forum for addressing the challenges that persist in a field still marked by gender disparity, while also celebrating the successes and strategies that have enabled women to shatter glass ceilings. Through engaging with women who are thought leaders and pioneers in our field, we hope that our participants will gain invaluable perspectives and tools for navigating and succeeding in the world of Surgery.

This year's symposium is particularly special as we are bringing speakers from all corners of the world, each with their unique stories of triumph, resilience, and groundbreaking achievements. Their journeys, coupled with the shared experiences of our attendees, serve as a powerful reminder of the progress we've made and the roads yet to travel.

As we look forward to the discussions, workshops, and networking opportunities ahead, **let us remember that our collective wisdom is the most powerful tool we have for redefining the future of Surgery.** It is through our shared efforts that we can create a world where women are not only participants but leaders and innovators in the field. I encourage you to actively participate, share your experiences, find mentors, and connect with fellow attendees.

By the end of the symposium, we hope that you will return to your institutions empowered to foster environments that promote career advancement, personal growth, and the expansion of horizons for women in Surgery. Together, we can continue to push boundaries, inspire change, and pave the way for future generations of women surgeons.

Sincerely,

Sharona B. Ross, MD FACS

# AIRSEAL

YOUR VERSATILE INSUFFLATION SYSTEM

"This technology helps preserve surgical exposure when I make an incision. It allows me to see at all times, and not have to wait for smoke to be vented. Ultimately, it makes me more efficient during procedures and allows me to be more independent as a surgeon."

**Dr. Bahareh Nejad**\* Head of Robotics Program, UC Davis
